## experience

### Western Reserve Anti-Aging Agency | Cleveland, Ohio

GDOT was able to engage with the customer early in the planning process to work together to coordinate the furniture solution for the new space while working closely with their new branding identity. We provided furniture from the Reception area to the Boardroom as well as workstations, private offices, common areas, training spaces and seating. 175 people now have a new, beautiful home to continue their critical programs for our growing senior citizen community.

### Thermo Fisher Scientific | Waltham, Massachusetts

Sean guided Thermo Fisher Scientific, a Fortune 200 company, through the entire furniture buying process including the identification of alternate products for workstations, private offices, conference rooms, public areas and seating, developing the Request for Proposals for multiple furniture packages and analyzing the submittals. He also work closely with the Architect, General Contractor, furniture dealers and subcontractors during the installation period to bring the project to a successful conclusion.

### Freemarkets, Inc. | Pittsburgh, Pennsylvania\*

Member of the team that managed the furniture process and installation of 400 Teknion workstations in a multi-phase project on seven floors of a downtown Pittsburgh building.

### Jones Day | Cleveland, Ohio\*

Project Manager of a two-floor project for the Jones Day law firm's National Operations Center with \$2,000,000 furniture expenditure that included workstations, private offices, conference rooms, and seating. Strong coordination was required between the Owner, General Contractor, and independent installer for this fast paced project.

### Cuyahoga County Headquarters | Cleveland, Ohio\*

Team leader of the group responsible for the procurement, project management, and installation of \$5,000,000 of workstations, private offices, conference rooms, and ancillary furniture for the 800 people moving into the new Cuyahoga County Headquarters facility. Successfully installed this furniture in 37 days.

# Sean Regan

GDOT Design

Managing Director

Mr. Regan has over 30 years of experience working in the systems furniture industry, developing results-oriented action plans while focusing on the client's objectives and the project schedule. He is a team player that works well within a complex environment that includes the owner, general contractor, architect, interior designer, furniture dealer, installer, and allied trades. He is self managed, self motivated, and works the plan with energy and enthusiasm.
