## experience

### Western Reserve Anti-Aging Agency | Cleveland, Ohio

GDOT was able to engage with the customer early in the planning process to work together to coordinate the furniture solution for the new space while working closely with their new branding identity. We provided furniture from the reception area to the boardroom as well as workstations, private offices, common areas, training spaces and seating. 175 people now have a new, beautiful home to continue their critical programs for our growing senior citizen community. w

### Mantua Manufacturing | Glenwillow, Ohio

This new 129,795 SF facility combines innovative architectural finishes and features with a functional and efficient furniture plan, providing an inviting environment for clients and an exciting new home for the business. The office side intention was to completely revamp the corporate culture using modern, wide open spaces and trendy collaboration hubs.

### Cuyahoga County Board of Health | Cleveland, Ohio

This was an extensive remodel, tearing down, housing, and reconfiguring over 190 Teknion stations and 20 private offices. The space was designed using existing furniture, adding new color schemes and complements.

### Cleveland Clinic Health Education Campus | Cleveland, Ohio

Teknion and GDOT were privileged to create a hybrid workstation using components of multiple vendors creating a free flowing and ergonomic workspace. The space features over 430 height adjustable stations and offices, using scratch resistant avonite surfacing never seen before.

### Western Reserve Agency | Cleveland, Ohio

Based out of Wooster, Ohio, the WRA provides insurance needs from the everyday client to multinational corporations. Using Teknion's Expansion Case Goods, we were able to deliver a space with functionality and storage for over 150 employees. Each station and office were equipped with height adjustable tables allowing the end user to sit or stand throughout the workday. This popular feature has become a staple in any office for the ever-changing workplace.

# Adam Burhenne

Installation Manager

GDOT Design

Mr. Burhenne joined the GDOT team as an Installation Manager having previously worked as Installation Lead for APG Office Furnishings, a local Herman Miller dealer. Adam inspects all furniture for defects and oversees the installation and assembly of the furniture orders. He ensures that all projects are adequately completed, on time and within budget margins. Adam works with clients from the external concept through completion of a project. His priority is effectively communicating with clients to achieve project goals.
