experience

Rivers Casino | Pittsburgh, Pennsylvania*

Pittsburgh North Shore casino project that formerly housed the Crucible Steelworks and Carnegie Steel rolling mill, spanning over 17 acres. The 300-million-dollar project that helped transform Pittsburgh's North Shore that includes design features to embrace Pittsburgh's Steel City manufacturing heritage by including steel, aluminum, and glass design.

Pittsburgh Paints Arena | Pittsburgh, Pennsylvania*

The 735,000 SF home to the Pittsburgh Penguins and host to a wide array of concerts and events in the Uptown neighborhood of Pittsburgh. The 42 point LEED-GOLD awarded project was completed in 2010 at a cost of 244-million-dollars to replace the neighboring Mellon Arena seating over 18,300 people.

Life University Chiropractic Program | Marietta, Georgia*

Home to the worlds largest chiropractic education program in a top-of-the-line facility. Furniture selection throughout this space allows for students to interact in a hands-on training while preparing for real-life practices in the chiropractic business.

Wellstar Health System | Atlanta, Georgia*

Projects include design and furniture for the leading healthcare provider in Georgia. Specific locations are Cobb Hospital, Douglas, North Fulton, Paulding, Sylvan Grove, and Atlanta Medical Center as well as Health Parks, Urgent Care Locations, and MOB locations.

Piedmont Healthcare | Atlanta, Georgia*

Projects include design and furniture for a multitude of locations within the Piedmont Atlanta campus ranging from Emergency Room, healthcare provider workstations, patient technology improvements and advancements, and the William C. Waters Pavilion.

Tift Regional Musculoskeletal Center | Tifton, Georgia*

This 80,000 SF center consolidated orthopedics, sports medicine, rheumatology, pain management, chiropractic care, and outpatient therapy. The new patient-friendly facility is designed for better flow, comfort and efficiency.

Brandon Moore

GDOT Design

Managing Director, Pittsburgh

As part of the GDOT Design team, Brandon's focus is to assist clients by fulfilling their visions, needs, and wants to achieve spaces that meet goals for a modern workspace. His background in human factors, ergonomics, and infection prevention, coupled with over 11 years of interior construction knowledge, allows him to provide advanced information that gives his clients a space that truly works for them. Brandon is a team-oriented resource that works with owners, general contractors, architects, interior designers, and trade professionals to ensure the best results for the projects that he helps bring to life.
